Isuzu tells us:

- **Combining toughness, advanced technology, and premium features, The New Isuzu D-Max is Smarter, Stronger, Safer and built to embody Isuzu's "Driven To Do" ethos, with models catering to both work-focused and lifestyle-oriented drivers.**
- **Offering up to 3.5 tonnes towing capacity, over a tonne payload, rear differential lock as standard on all 4×4 models, and comprehensive Advanced Driver Assist Systems, the D-Max sets new benchmarks for safety and performance.**
- **The New Isuzu D-Max is now available to order at UK dealerships, with trims ranging from the rugged Utility model to the luxurious V-Cross, starting from £27,495 (CVOTR).**

Isuzu UK proudly unveils The New Isuzu D-Max, a pick-up truck that sets new benchmarks in durability, refinement, and technology. Smarter, Stronger, and Safer than ever, the New Isuzu D-Max is the ultimate combination of toughness, innovation, and versatility, built to continue the "Driven To Do" ethos that defines Isuzu.

Salient points, in brief, of the new line-up include:

The Business Range, featuring the Utility model, is designed as a no-nonsense workhorse available in single, extended, and double cab formats.

The All-Purpose Range caters to those seeking premium features and modern styling.

Sitting at the top of the line-up is the V-Cross (priced from £37,995), featuring dark grey exterior finishes, an advanced 9" infotainment system, and an 8-speaker premium sound setup, combining luxury and practicality in one vehicle.

All versions are powered by Isuzu's proven 1.9 litre turbo-diesel engine producing 164 PS and 360 Nm (266 lb.ft) of torque.

There's much more about the new D-Max to come on Wheels-Alive...

Kim adds: "Wheels-Alive will very soon be covering the new D-Max in more detail, with a full road test of the newcomer booked (please watch this space). We rated the previous D-Max very highly, and it will be a hard act to follow".
